VIOLATING THE LAW

No Attention Paid to the Civil Service Act by Mr. Cleveland.

His Subordinates Permitted to Dismiss Republicans by Wholesale-A Dangerous Building.

Special to the Indianapolis Journal. WASHINGTON, Nov. 11 .- So common has become the violation of both the letter and the spirit of the civil-service law that it is never noticed here. In one day last week about fifty clerks in one department were reduced in rank and salary and as many Democrats promoted to fill the vacancies. It was all done to punish representatives of one party and favor partisans in the other party. It is estimated that there have been dismissed from the classified service since the 6th of last March over four hundred Republicans and not a single Democrat. In none of these violations of the civil-service law have there been appeals to the Civil-service Commission, as that body is as impotent as a last year's

MANY LIVES IMPERILED.

The Government Printing Office Liable to Collapse at Any Time.

Special to the Indianapolis Journal. WASHINGTON, Nov. 11 .- Every day there is expected to occur a duplicate of the old Ford's Theater catastrophe of last July, wherein a number of clerks in the Adjutant-general's office were killed and a large number severely injured by the collapse of a weak, old building, where hundreds of clerks were employed upon government records. The government printing office, an old shamble of a three-story building in the eastern part of the city, is expected to collapse. If it falls it will likely kill many times more persons than were carried to death by the Ford's Theater accident. There are employed in the government printing office nearly three thousand persons. Upon every floor there are hundreds of tons of heavy materials and machinery. There are few exits. Every time a heavy truck is run over the floors the building shakes like an aspen leaf. The other day the employes thought the building was about to fall, and there was a scene which in itself threatened many lives. Congress has been quarreling for five years over the selection of a site for a new government printing office building.

K. OF P. ENCAMPMENT. Major-General Carnahan Assisting

the Washington Committee. Special to the Indianapolis Journal.

WASHINGTON, Nov. 11 .- Major General Carnahan, of the Uniform Rank, Knights of Pythias, Indianapolis, writes here that he takes as much interest in Washington being successful in securing a large crowd at the Knights of Pythias encampment here next season as any of the local members. After stating the delight he feels in seeing the progress already made, General Carnahan goes on in his letter as follows:

"I have written a personal letter to every brigade commander and every regiment commander on the subject of the meeting in Washington next year. In my communications to them I have made a strong personal appeal to their pride as-officers, their pride as commanders, their State pride and their pride in the Uniform Rank, to stir them up to an active and earnest work for getting out the Uniform Rank next August. More work has been done in this direction for Washington than for any meetings we have ever had, and I expect to keep it up. I intend now to commence on my staff so as to get them to go as a body to your city, and I also intend to urge them strongly to work zealously for the meeting." As a result of this letter from General Carnahan the members of the local lodges are much encouraged, and now that they have the support of the supreme officers, will labor more earnestly to make the 1894 reception the greatest this or any other city has ever seen. General Carnahan reports much interest in the approaching en-campment among Hoosier Knights, hundreds of whom will be here.

The Navy Department Pleased. WASHINGTON, Nov. 11 .- The Navy Department received information to-day of the result of the trial of the armored cruiser Olympia off the California coast. It was only a contractor's trial, and was run with the ship's bottom foul. The steam engineering department and the construction and repair department were greatly pleased with the result reported. The horse power developed on the run was 15,700, this being subject to correction. The indicated horse power was 13,500. The speed made during continuous run of nine hours was over twenty knots an hour, with revolutions at the fate of 134. The Olympia is of the protected cruiser type, her keel having been are 340 feet on water line, 53 feet extreme breadth, 21.6 mean draft, displacement, 5,500 ters. The engines are twin screw vertical triple expansion. The speed required is twenty knots, and when her hull is cleaned and she is made ready for her official trial trip she is expected to earn a handsome premium for her makers at the rate of \$50,000

Special to the Indianapolis Journal. WASHINGTON, Nov. 11 .- Senator Voorhees, who has determined not to leave for Indiana until some time next week, has been informed by President Cleveland that there will be no appointments made for the foreign service before Congress convenes. Nominations for consular and diplomatic service would wait for confirmation by the Senate before the commissions would be issued, as the session of Congress is so near, and the President has concluded that it would be foolish to make any appointments to the foreign service before Congress convenes. Jerome Herff left for his home at Peru to-day, with little if any hope that he will get a consular appointment at any time. Secretary Riley, of the Democratic State committee, who has been here in the interest of Mr. Herff for some weeks, has gone

Proposed Episcopal Cathedral.

WASHINGTON, Nov. 11 .- Another step has been taken in the enterprise which proposes the establishment near this city of the Protestant Episcopal Cathedral foundation. During the past week a meeting of the committee appointed by the incorporators was held and the deeds of the various tracts of land were accepted. The site selected is a beautiful tract of land lying between the Klingle and Woodley roads to the west of the Zoological Park and adjoining on the North Woodley Park. It is on the line of the Connecticut-avenue extension and the Rock Creek railroad, and contains about twenty acres. It is elevated ground, nearly three hundred feet above the level of the ocean and commands a fine view. It is proposed to erect there a cathedral, about which will be clustered the institutions of learning.

As Long as He Will Need It. WASHINGTON, Nov. 11.-President Cleveland has extended the lease of his country home at Woodley to the spring of 1897. It was first made for one year, to the spring of 1894. It is said that he intends to spend much of his time at his country place in preference to staying in town over night at the White House, departing from this rule only at seasons of the year when the weather is likely to make it impracticable.

THE GRAVESEND OUTRAGE.

Governor Flower Asked to Prosecute . . the McKane Gang.

BROOKLYN, N. Y., Nov. 11.-William J. Gaynor, the judge of the Supreme Courtelect, has sent the following to Governor

"I respectfully request that you have the Attorney-general at once appoint one or more special prosecuting officers for this county to proceed forthwith to collect the evidence and prosecute the guilty. The district attorney of this county openly, in court, in the newspapers and in public campaign speeches, sided with McKane and the other officials of Gravesend in the gross crimes which they were committing. Since the election he has, of course, done nothing to bring them to justice. We have no other official authority under and through which evidence now easily at hand may be collected and systematized before it becomes dissipated. The general public do not always reflect how precisely and carefully such things have to be done. It is easy to hurry into court, and fatal to get there without due foresight and preparation. "with a population of 8,418 in the town of Grayesend, as shown by the State census last year, 6,218 names of alleged voters were put upon the registry lists this year. Mc-Kane and the inspector of elections then entered into and carried a conspiracy to prevent registry lists from being inspected and copied. Application being made to the courts, the inspectors concealed themselves to prevent the serving of notice of legal process on them, and, I am informed, left the State. McKane brutally assaulted and locked up the copyist sent to the town to demand the registry lists in order to copy them. The district attorney openly sided with McKane and the other officials in the commission of these acts. In addressing a large public meeting on Monevening before the election he by name a candidate for office who was striving to get the lists, and said he could not bulldoze the officials of Gravesend and that on the day after the election he could eat all the votes he would get in the town of Gravesend. The brutal assault committed by McKane and his officers on election morning upon twelve citizens of Brooklyn of the highest standing, who, as volunteers, had gone down to the polis there as legal watchers, was the nat-

ural result of the conduct of the district attorney. "I have been elected to an office which disqualifies me from prosecuting the perpetrators of these crimes, but I cannot and shall not sit silent and see those gross outrages against honest people go unredressed. I shall resign the office first. I also respectfully request you to have the Attorney-general give an opinion as to the Governor's power to remove the officials who joined in, connived at or encouraged the crime to which I have called your attention. Re-W. J. GAYNOR." spectfully,

Triple Tragedy in Alabama. TUSCUMBIA, Ala., Nov. 11.-News has just reached this city of a triple tragedy that occurred this morning, at Riverton, about twenty-five miles distant from this city. The names could not be obtained, as the coroner has not yet returned. It seems that a family, composed of a woman with a grown daughter and sixteen-year-old son, were suspected of having some money. A man approached them, demanded the money and when they refused killed both mother and daughter. At this juncture the son arrived on the scene, and, with unerring aim, shot the murderer with a revolver. The information was that the three bodies lay near each other cold in death.

Mrs. Marshal, of Terre Haute, Stabs Young Mrs. Eva Kelley.

Freight Wreck on the Big Four-Shelbyville Lovers Fleeing from Relatives-Field Trials Ended.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Nov. 11. - Mrs. Marshal, a woman fifty years old, this evening stabbed and killed Mrs. Eva Kelley, eighteen years old. Mrs. Marshal says she was at the house of Mrs. Kelley's mother, Mrs. Reynolds, this afternoon, helping the family move, and that at supper she was peeling potatoes when Mrs. Kelley accused her of having caused her arrest some time ago. Mrs. Marshal denied it, and the Kelley woman struck her, whereupon she threw up her hand in which she held a large penknife. She claims not to know anything more about the affray, except that she left the house and went for the police to have Mrs. Kelley arrested for assault and battery. The surrounding circumstances do not corroborate her story. Mrs. Marshall was not peeling potatoes, and the stabbing was done at the front door. There was only one wound, a deep one, probably reaching the heart. The victim died in a few minutes. The Kelley woman was not living with her husband, and had been arrested several times.

Franklin, the winner of the all-ages pointer stakes, and Chevaller, winner of the allages setter stakes, were put down to run for the absolute championship of the stake. They were sent off at 3:13 o'clock and ranged through corn and woods. Chevalier was lost several minutes, but was found on a good and stylish point in corn, a good piece of work. Meanwhile Franklin flushed a covey, and a few minutes later a second bevy was treated in the same manner. Franklin ran a poor day in this head, and was evidently off his nose and speed. He was not like the same dog we saw win the all-age pointer stake on Thursday. Chevalier got two more long points and several singles, and won the race from end to end. This ended one of the most memorable

General Carrillo Alleged to Be Leading an Insurrection.

The Province of Las Villas, Comprising Eleven Towns, Said to Be in a State of Ferment.

NEW YORK, Nov. 11 .- Leaders of the Cuban revolutionary party in this city say they have private advices from that country which state that the rebellion against the government is already well under way. While many think the movement was prematurely bgeun, and for that reason will end disastrously, more enthusiastic Cubans predict success. It is pointed out that Spain already has all she can take care of with the Morocco affair, and, therefore, will not be able to aid the island. This, it is thought, will not only make dissatisfied Cubans more confident of success, and, consequently, more determined, but will create lack of confidence among the government

Mr. Trujillo, editor of El Parvenir, and New York correspondent of La Lucha, a Havana paper, this morning cabled the editor of the latter paper asking information concerning the difficulties. The message was sent early this morning, and had not been answered at a late hour to-day. Ordinary cablegrams are answered directly. This is taken to indicate that the trouble is already so serious that steps have been taken to prevent correct news from reaching the outside world.

The leader of the revolutionary party in America and its most trusted adviser in Cuba is Mr. Jose Marti, editor of La Patrie. To a reporter to-day Mr. Marti dictated the following: "There is undoubtedly in Cuba a revolutionary movement worthy of consideration. The government has kept a close watch over all communication from the island, and by this revealed the true gravity of the state of affairs. The news already published that came from Key West, although quite true as regards the unanimous feeling of Cubans, and they are most enthusiastic at the present moment, appears to be exaggerated and somewhat confused. There also seems to be unwarranted misuse of public names in cumors which have reached the papers. The emigrated Cubans, anxious only to help their and lasting republic, know what to do in the present moment, either in case of prosperity or otherwise, and will do their duty in such a way as to please all true men of America. It appears that the movement is growing in the part called Las Villas, and that two provinces have here-tofere taken part in it."

The province of Las Fillas, to which Mr. Marti refers, comprises eleven towns in the interior. General Carrillo, the leader of the rebellion, is said to have succeeded in creating a general uprising in this territory. The last advices received in New York by Cuban leaders were to the effect that Carrillo had five hundred men at his command. How many more have joined him can only be surmised. It is not believed that the difficulty has yet extended beyond the central portions of the islands. At the Spanish consul-general's office in this city it was stated that no word has vet been received of any trouble in Cuba. It was thought the difficulty, if there had been any, has been exaggerated for the purpose of getting aid from sympathizers in America.

A Key West Rumor. NEW YORK, Nov. 11.-Cuba revolutionists who make their headquarters here have received information that fifteen cities near central Cuba declared against Spanish rule last Friday, and are in open rebellion against the government. An armed expedition is said to be preparing to leave for Cuba from this vicinity within twenty-four hours. Large sums of money have been contributed by compatriots here, who feel sure of victory now that the home government's attention is turned to the trouble in Morocco.

WILL FIGHT THE STATE.

The Olympic Club Holds that Glove Contests Are Lawful.

NEW ORLEANS, Nov. 11 .- Late yesterday evening an application for an injunetion was filed by Attorney-general Cunnigham in the civil District Court to prevent the Olympic Club from giving the Bowen-Abbott glove contest on the 15th inst., as advertised. The injunction was granted. The Attorney-general also filed a petition praying that the charter of the club be forfeited, on the ground that they have violated the law in holding prizefights, Attorney-general Cunningham designating glove contests as prize-fights. Several members of the Olympic Club were seen to-day. They were on the whole very glad. At a recent meeting \$5,-000 was set aside by the club for legal expenses. They expected to get into the courts and wanted to do so. The members were confident that the State could not win its case. There is a probability that the various sporting editors and experts throughout the country who have witnessed the big contests here will give evidence to show that a glove contest is legal under the statutes of the State. The evidence of all these gentlemen will be procured, it is sald, through notary publics, and sent here by mail. The sporting editors of the various local papers and local experts will also go on the stand. The club will fight the State to a finish. Banks of Rio de Janeiro Closed Yesterday-Incriminating Documents Found in an Anarchist's Lodgings.

NEW YORK, Nov. 11 .- The Herald's Montevideo dispatch says: Word has just been received from Rio Janeiro that all the banks were closed to-day, and that the bombardment of the city by Admiral Mello

was renewed. There was some heavy fighting between the rebel forces under Admiral Mello and President Peixoto's loyal troops at Nictheroy, the most populous suburb of the capital, on Wednesday. The principal point of attack was Fort Uncaugne, but the fire from the fort finally sank a rebel torpedo boat, though not before the insurgents' guns had inflicted considerable damage upon the buildings of Nictheroy.

The republican newspapers of Rio report that the federal troops have been defeated

in Marcao Lopez. The British consul here has advised the shipping interests of the city that all goods now in the harbor of Rio, either on ships or lighters, will hereafter be protected by the commanders of foreign war ships in the

bay. Later reports from Rio say that every two or three days for some time past there has been an artillery duel between the loyal and rebel forts in which the ships of Mello's squadron rarely join. The revolutionists have gained a foothold on land in the suburb of Saretta, and have held it in spite of considerable skirmishing. Their white flag can be seen from Rio at several points. One of Peixoto's land batteries has

been silenced. An ex-Governor of the State of Rio Janeiro has promised that if Mello's men succeed in wresting the possession Nictheroy from the loyal troops he will furnish the rebels with a large quantity of arms. He has not sufficient confidence in their ability to win as long as they confine themselves to operations afloat to lead him

to risk anything on them just now. It is reported that Peixoto has now nearly ready his balloon, work on which has been proceeding for some time, from which he expects to be able to drop a charge of dynamite upon Admiral Mello's flagship, the Aquidaban.

British Aid for Mello. NEW YORK, Nov. 11.-The Herald's Londen dispatch says: "It is learned on good autrority that a well-known English retired naval officer is forming a small crew of cruisers and torpedo boats in England, in command of which he intends to proceed to the assistance of Admiral Mello. He has aiready purchased two ships which will be fitted up as cruisers, and is negotiating with

BARCELONA, Nov. 11. - Aragon, the French Anarchist, who is one of the men arrested on suspicion of being connected with the outrage at the Liceo Theater, turns out to have been a friend of Pallas, the Anarchist who was executed for attempting the life of Captain General Campos. The lodgings of the French Anarchist were searched shortly after his arrest and photographs of the Chicago Anarchists and other Anarchist prints were found, The police also seized documents which lead them to believe that the bomb-throwers were leagued with a gang of thieves, as when the panic-stricken audience rushed from the theater on the night of the explosion numerous attempts to snatch jewelry, purses, etc., were made. Ire of Frenchmen Aroused.

PARIS, Nov. 11 - The speech of the Italian embassador at the Lord Mayor's banquet in London is causing angry comments from the French press. Referring to the visit of the British Mediterranean squadron to Italy the Italian embassador said: "We Italians have no need to go into raptures or to turn our houses inside out when receiving foreign guests." This is plainly a reference to the Franco-Russian fetes, and it has aroused the ire of the newspaper men of France, causing them to indulge in some very bitter remarks regarding the friendship existing between England and Italy. Some of them go so tar as to intimate that Italy may yet regret her display of friendship for England, and that the combined French and Russian squadrons in the Mediterranean are capable of dictating terms to any combination which Italy and England may present in the Mediterranean or else-

England Behind the Age.

LONDON, Nov. 11.-The Rt. Hon. Lord George Hamilton, who was First Lord of the Admiralty during the last Conservative administration, speaking at Harrow, to-day, said: "If Great Britain is deprived of the command of the sea, a large portion of the people will be reduced to a state of permanent destitution. Foreign nations are making great naval progress, and, unless we make an immediate and determined effort, we shall be at a disadvantage next year. I hope that the government will soon intimate its readiness to prepare to meet the new wants of the navy; if not, it will be the duty of Parliament to make them show their hands."

India's Sacred Cows.

LONDON, Nov. 11 .- A dispatch to the Times from Agra, British India, says: "The Viceroy, in reply to an address presented to him by the municipal authorities yesterday, made an important speech in regard to the practice of cow killing, resulting from the late riots. He said he must declare in the plainest language that the government would not tolerate these lawless exhibitions. The government's policy was one of strict neutrality and toleration, but toleration did not imply lawlessness and crime. He denounced as a miserable falsehood the statement that the government encouraged religious quarrels in order to sow dissensions among the

New Explosive. BERLIN, Nov. 11 .- A new explosive, invented by Dr. Ochs, who was formerly connected with the Krupp works, has caused a fall in dynamite trust shares. The pressure can be produced, according to requirements, up to 5,800 present atmospheric pressure. The experiments which have recently been made by the military authorities with the new explosive have been successful, and show that it possesses the qualities of safety and that it is far-reaching in its effect.

BIG FIRE AT FORT WAYNE.

The Academy of Music Burned and Other Buildings Threatened.

Special to the Indianapolis Journal.

ences this morning.

FORT WAYNE, Ind., Nov. 11 .- The Academy of Music, operated every night by Jas. Geary's museum and theater, was destroyed by fire to-night. The house was crowded this evening to witness the play of "Camille," and the last of the audience had just left the house when the fire broke out, and the actors had difficulty in saving their property. The Aldine Hotel and Gazette office, on either side, are threatened, and will prebably go.

BLOODSHED MAY FOLLOW.

How Minister Thurston Views Cleveland's Hawaiian Policy.

CHICAGO, Nov. 11.-Minister Thurston, of Hawaii, has been detained in Chicago closing up the affairs of the Hawaiian exhibit, but will leave for Washington to-morrow. When asked to express an opinion concerning the action of the administration in rela-

tion to Hawaii, he said: "So far as I know that matter was fully covered last February-both charge and reply-and I know of no new developments since then. I do not hesitate to reiterate that American troops took no part in the movement, and that the revolution was initiated by the late Queen and forced upon the people of Hawaii who, in self defense, took action terminating a condition of affairs menacing to life and property, and which was no longer tolerable. The claim of the provisional government is that, regardless of the method of how it got there, it is today the only government in Hawaii recognized as such at home and abroad, and that any attempt to forcibly overturn it by a foreign power is in the nature of war against a friendly government, which, as I understand, requires the consent of Congress. I am not informed that the President is recommended to arrogate any such power to himself, and have no right to assume it. The monarchy cannot be restored, except by force from without, and if that supporting force is withdrawn it will be forthwith overthrown. There will be no safety for those who have supported the provisional government if the Queen is restored, and if the attempt is made I fear that the results will be of the gravest character. I believe that bloodshed will be the inevitable result, in which Americans, American property and American interests will be the greatest sufferers."

MARY LEASE YELLIN' AGAIN.

This Time Her Voice Is Directed Against the Populist Administration.

TOPEKA, Kan., Nov. 11. - Mrs. Mary Lease's attack on the State administration, Senator Martin and the fusion policy has created a greater furor than any political event since the legislative fight last winter. Governor Lewelling says he will withhold judgment on Mrs. Lease, whom he appointed a member of the State Board of Charities at a salary of \$1,200, until he hears further from her. He admits that he has heard she was not getting along pleasantly with the other members of that board, Messrs. Householder and Waite. Some Populists intimate that Mrs. Lease is preparing to go over to the Republican party. Speaking of the statement she made for publication, Secretary of State Osborn cays: 'It was the woman in her. We have not been defeated, but by the misstatements of the daily newspapers we wear that appearance, and Mrs. Lease, with the natural instinct of her sex, flies at us in true feminine rage.'
